

ATHLETIC TRAINING

The Master of Science in Athletic Training program is a two-year, 38-credit-hour, master's degree, delivered via traditional, online, and hybrid formats. The degree employs course content that focuses on the competencies needed to practice the art and science of athletic training, leading to compassionate and exceptional care to meet the regional needs of western Colorado and beyond. In alignment with the mission of the Department of Kinesiology, the program emphasizes promoting wellness and physical activity across a diverse population of patients.

Students will learn the importance of self-care and fostering resilience and wellness in themselves to extend better care to others.

There are two types of applicants for the MSAT program. The first type is the Traditional MSAT applicant who has earned an undergraduate degree. The second type of applicant has not yet earned their undergraduate degree and is currently enrolled at CMU in a bachelor's of science program and may qualify to pursue the MSAT as part of a Bachelor's degree 3+2 MSAT concurrent enrollment program. For additional information about applying to the program, please visit the website.
