

GEOGRAPHIC INFORMATION SCIENCE AND TECHNOLOGY

Program Description

Colorado Mesa University offers a certificate and a minor in Geographic Information Science and Technology. The courses are open to all students interested in broadening their knowledge and enhancing job-related skills in a rapidly expanding market of computer-based technology. The multidisciplinary nature of geographic information science and technology allows students from a wide variety of fields to participate in this exciting program.

There is a strong demand for people who are trained in geographic information science and technology and this certificate assists students in securing jobs in this rapidly growing field. GIS/GPS can be used for cartography, geology, business, biology, environmental science, history, archaeology and criminal justice.
