OCCUPATIONAL THERAPY

The Master of Science in Occupational Therapy (MSOT) has received approval by Faculty Senate, the Board of Trustees and CDHE. The HLC will conduct a site visit Fall 2021, with an approval/disapproval decision following that visit. Until the program is approved by the HLC, students may not enroll in the MSOT program. ACOTE has granted Candidacy status as of April 2021. Pending HLC approval and ACOTE accreditation, graduates of the program will be eligible to sit for the national certification examination for occupational therapists through the National Board for Certification in Occupational Therapy (NBCOT) and will be able to apply for licensure through the professional licensure board in the state in which the student wishes to practice.

The MS Occupational Therapy program prepares students who already hold a baccalaureate degree to become qualified occupational therapists. The didactic portion of this program includes four terms of on-campus coursework followed by two terms of experiential and hybrid coursework. The program requires successful completion of academic courses and integrated fieldwork concluding with two, 12-week offsite fieldwork experiences.

Admission Requirements:

A cumulative minimum grade point average (GPA) of 3.0 in undergraduate coursework and minimum 2.7 GPA for prerequisite coursework is required from an accredited university. Evidence of completion of the Bachelor’s degree and all prerequisites must be received prior to the start of the program. Please check with the CMU Occupational Therapy Program Director or the Occupational Therapist Centralized Application Service (OTCAS) for the complete list of additional admission requirements.
