REQUIREMENTS FOR UNDERGRADUATE DEGREES AND CERTIFICATES

Students are expected to assume responsibility for planning their academic programs in accordance with University and department policy. Students are responsible for obtaining information about program requirements via this catalog in the Program A-Z section, or in the catalog for their program year. They are responsible for reviewing the specific requirements for the degree, minor, and/or certificate being pursued. For prior academic years, refer to the Catalog Archives and choose the appropriate catalog year. Students are urged to consult with their advisors when creating their graduation plans. The University assumes no responsibility for difficulties arising when students fail to establish and maintain contact with their faculty advisors or department heads. Students are ultimately and solely responsible for knowing the requirements for a particular degree/minor/certificate and for fulfilling those requirements.
