

REQUIREMENTS FOR UNDERGRADUATE DEGREES AND CERTIFICATES

Students are expected to assume responsibility for planning their academic programs in accordance with University and department policy. Students are responsible for obtaining information about program requirements via this catalog in the Program A-Z (<http://catalog.coloradomesa.edu/programs>) section, at the beginning of their work detailing the specific requirements for the degree or certificate being pursued. If enrolled at CMU as a degree-seeking student prior to Summer 2018, use the left side menu on the prior year's program sheets (<https://www.coloradomesa.edu/academic-program-sheets>) website. Students are urged to consult with their advisors. The University assumes no responsibility for difficulties arising when students fail to establish and maintain contact with their faculty advisor or department head. Students are ultimately and solely responsible for knowing the requirements for a particular degree and for fulfilling those requirements.
